CAT6 UTP Network Cable (Florescent black color)

Product number:6.03

Summary

W91-XXM is a CAT6 UTP network cable designed by Beetek specifically for LED rental screen applications. The cable body is made of 8-core multi-strand 24AWG oxygen-free copper and the dual-layer jacket of composite material is soft and maintains its flexibility even at lower temperatures. The 50µ gold-plated contact pins, along with unbreakable retaining latches support repeated plugging and unplugging. The product is mainly suitable for interconnecting LED panel sender and receiver cards, and connections between HDBaseT extenders. It is available in lengths from 5 to 100 meters.
