

Portable Nylon Cable Ties

Product number: 990712

Product Overview

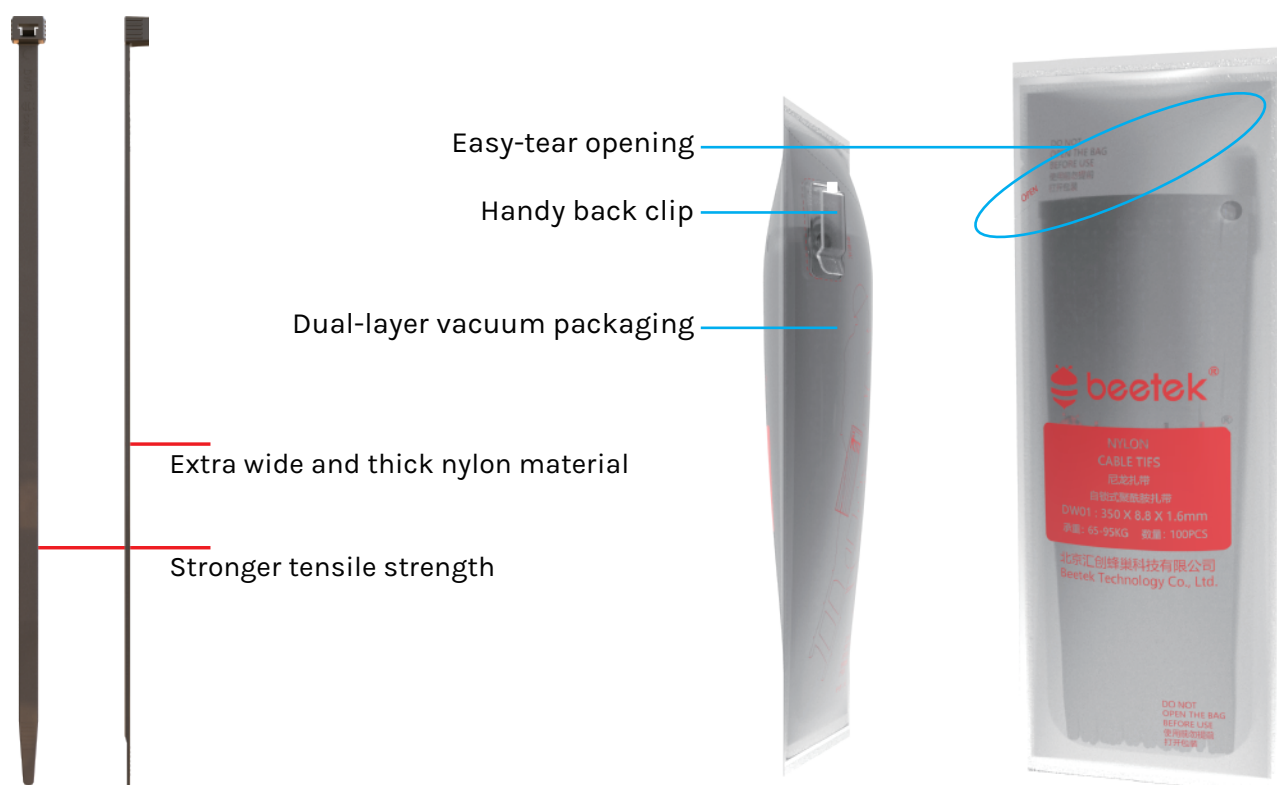

The DW01 is a super heavy-duty zip tie developed for show scene construction. Extra-large size of 8.8*350mm, they are usually used as a reinforcement between the LED screen and the scaffolding. The extra wide and thick design gives it unsurpassed tensile strength. For ease of use, the product comes in a plastic bag that turns into a dispensing pouch. Tear the bag open and clip it on your belt with the patented back clip, so you'll have it right where you need it as you go about your business. Double-layer vacuum packaging is used to keep the product fresh and give it a longer service life.

Product Features

- Zip tie product developed for show scene construction.
- Made of strong, wide, and thick nylon material.
- Each zip tie is 8.8*350mm with a tensile force of 65-95KG.
- Unique double-layer vacuum packaging ensures longer service life.
